- It is a record of your commitment. You could enhance your passport with photos and other mementos.

The Québec-based workshop “Engaging in our Communities as Global Citizens” was initially developed in 2005 by Jean Robitaille, and received a scholarly review by members of the Établissements verts Brundtland (EVB) and the Centrale des syndicats du Québec (CSQ). In 2006, the Canadian Teachers’ Federation (CTF) expressed interest in collaborating with the CSQ to develop a national bilingual version of this valuable workshop. The *Student Passport* is one of the three workshop documents.

CTF acknowledges the financial support of Green Street, an environmental learning and sustainability program funded by the J.W. McConnell Family Foundation, and the financial contribution received from the Canadian International Development Agency's *Global Classroom Initiative*.
